Super Star II™ - Premium Grinder For Hobbyists

To ORDER NOW: If you are a stained glass consumer, e-mail your [Wish List](#) to your local retailer or visit your local stained glass store in person. Please search the Retailers List for a store nearest you. If you are a stained glass retailer, please check our [Distributor List](#) for a source near you.

The perfect grinder for the artist or hobbyist. The Super Star II is equipped with a powerful motor that eliminates the frustration of working with glass by refusing to slow down when grinding. The strength of the motor combined with our permanently bonded grinding head team up to help glass artists create their work accurately and efficiently.

- Powerful 1/12 HP, 3450 RPM motor.
- 19 Inch-ounces breakdown torque.
- Permanently "bonded" diamond grinding surface on the 3/4" main grinding head and the 1/4" grinding/drilling head.
- Roller-type adjustable straight edge guide.
- Convenient coolant drain.
- Flexible rubber splash guard.
- Exclusive built-in accessory drawer.
