

Product Information

TwinSpin™ Combination Disc and Router Grinder: Stock no. 20070

The TwinSpin™ is a multi-use grinding and shaping machine for glass, ceramic, plastics, tile, marble, stone and other nonmetallic items.

Key Features:

- A complete router grinding setup including lift off reservoir, reversible grid work surface, Inland's **TouchTop™** feature, 1" grinding head and 1/4" drilling / grinding head.
- A complete disc grinding setup including lift off disc wheel reservoir and work surface, 5" diamond coated disc and disc cover with drip coolant feed.
- A mini-work surface for router grinding while setup to disc grind. It sets in place over the disc when needed and lifts away to resume disc grinding.
- Two **MitreMaker™** bars that snap into the disc work surface for grinding 90°, 45°, 22.5° and 60° miters.
- Compound Angle Bars (CAB) mount to the MitreMaker™ for grinding compound angles like those found on lamp shade crowns.
- The **TouchTop™** feature provides on demand grinding and extends motor life. The grinder turns on when you touch the work surface and off when released. The sensitivity is adjustable to suit your grinding style.
- Additional **FineGrit™** and **SuperFine™** Grit discs are available for grinding softer materials, making smooth frosted edges, and producing decorative details.
- Use the **TwinSpin™** with the optional [3-Step! BevelerKit™](#) and you have a mini-beveling machine for grinding and polishing beveled edges on glass.
- **Five Year Full Confidence [Warranty](#)**

Product Uses:

- The **TwinSpin™** gives you two machines in one. A router type grinder that drills holes, shapes and grinds, and a disc grinder that straight edge grinds, bevels, thins, miters and grinds with amazing speed using the outer edge of the 5" disc. Conversion takes less than one minute.
- The **TwinSpin™** makes projects easier to build, better constructed and more professional looking.
- It's an economical choice for hobbyist and professional. With **TwinSpin™** in your workshop you have a standard grinder and disc grinder that you can convert into a beveling machine.

- Because the **TwinSpin™** shapes and grinds more than just glass, you'll find it's a useful tool for many projects around the home.

Product Specs:

- **Stock no. 20070**
- Size: 12" wide x 10" deep x 6" high.
- Weight: 11 lb.

Voltage	115V	230/240V
RPM / UPM (idle)	3550	2970
Maximum Torque	30 oz.-in.	0.219 N-m
Frequency	60Hz	50Hz
Maximum Horse Power	1/11 HP	1/11 HP
Watts In	215	95 idle, 180 load
Watts Out (at peak torque)		55
Thermal Protection	YES	YES
