

Product Information

WizlingCG™ Glass Grinder: Stock no. 30030

(Contour™)

WizlingCG™ gives you features at an affordable price!

Key Features:

- The most powerful grinder in its class.
- The same stable body design and work surface size found on the [Impulse™](#) and [Aero™](#). You get over 13 more square inches of work area and the work surface is reversible!
- Lift off reservoir is easy to remove for quick cleaning.
- Comes with a 3/4" grinding head.
- 2-way on/off switch.
- Accepts Inland's wire frame face shield support for use with our [FaceShield™](#) or [MagnaShield™](#).
- Works with many optional accessories and bits.
- **Five Year Full Confidence [Warranty](#)**

Product Uses:

- The WizlingCG™ updates the Wizling™ for the 90's with a sleek body design, larger work surface and easy clean reservoir.
- WizlingCG™ has more features and accepts more accessories than other grinders at the same price.
- Easy to setup and use, the WizlingCG™ is an ideal entry level and hobbyist grinder.
- Its size and design make it big enough to handle most grinding needs.

Product Specs:

- **Stock no. 30030**
- Construction: Injection molded plastic.
